## DUTY OF CONGRESS

The failure of Congress to provide for cruisers will mean nothing else than neglect of the plain duty of safeguarding the nation. This duty has nothing to do with the moral duty of co-operating with other nations for the renunciation of war. The most rabid and deluded pacifist will hardly claim that the Kellogg treaty guarantees the world against war. It is at best a discourager of war, and all friends of peace hope that it will be effective in deterring nations from resorting to war under any excuse whatever. But no prudent nation intrusts its independence or vital interests to the good faith of other nations. It relies in the last resort upon its own people, with arms in their hands. At this stage of civilization it is not a reproach to any nation that it provides means whereby its people can defend themselves. All nations are doing so, according to their own conception of their needs.

The United States is always insufficiently provided with means of defense. The roll of the young men needlessly sacrificed, because of lack of equipment and training is an indictment against the congresses that have neglected their plain duty. Whether or not the Seventieth congress will be held responsible hereafter for unnecessary loss of American life remains to be revealed. But the warning of history is before the legislators, and the need of providing suitable ships is undeniable.

Every legislator who interposes obstacles in the way of American defense is taking upon himself a heavy responsibility, which he can not explain away hereafter by showing that he voted for the treaty renouncing war. War may be thrust upon the United States through aggression upon American neutral commerce by foreign belligerents and in that day the United States navy, and not the Kellogg or any other treaty will be the bulwark of American security. Now is the time to make the bulwark strong.

## WORK AFTER SIXTY

The recent order of the president advancing the age for appointment of first, second and third class postmasters from 65 to 68 ought to help the whole army of men with silver threads in their hair who complain they are turned away from industry because "young blood" is demanded.

In the last few years the expectancy on life has been greatly increased. A man of 50 or 60 or 65 is not as old as a man of that age was considered a couple of decades ago. Perhaps the agitation for old-age retirement pension carried on in public service and out, may be subtly responsible for the idea that past a certain age a man is no good and his job should go to a youngster.

The more such opportunities as the president's order gives the less we shall hear about industry not wanting men past middle age. The more opportunity there is for employment the less we shall hear about age retirement pension and the less about old age pensions the less industry will be prejudiced against men old in years only.

It is said that when President-elect Hoover crossed the equator, old Neptune paid him the customary honorary visit. Wonder if he asked for an appointment on the Shipping Board?

One of the popular songs of the day is about "where the shy violets grow," and wherever that may be we are sure it isn't around the Washington hotels where the job hunters are congregating.

Congressman Cordell Hull takes up the battle-cry of lower tariff which again proves the old assertion that some folks don't know when they have enough.

One thing that most of us don't have to worry about is the unprecedented increase in the brokers' loans.

**BOY SCOUT WEEK**

A MARVELOUS ACHIEVEMENT

Twenty years ago an American publisher was wandering about the streets of London during one of the proverbial fogs of the foggiest city on earth.

He couldn't find his hotel.

A boy stepped up to him, asked him his trouble and when told of the man's plight, escorted him to his hotel.

In true American fashion, the man reached in his pocket for a coin to tip the lad.

"No thank you," the boy replied, "I am a Boy Scout, and scouts do not accept tips for good turns."

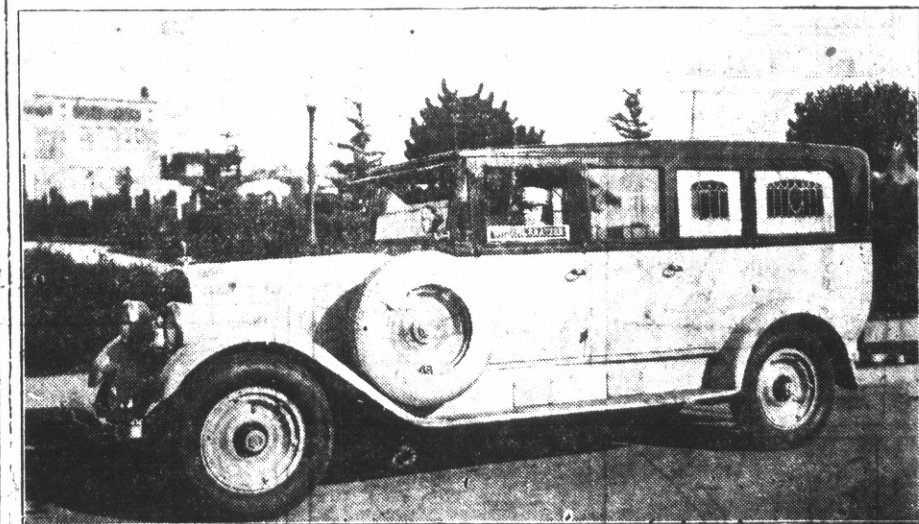

The man, who was Col. W. D. Boyce, was impressed and asked the boy what he meant by Boy Scouts. The lad explained the movement, and at the request of Col. Boyce escorted him to the offices of Sir Albert Baden-Powell, head of the British Boy Scouts.

There Col. Boyce asked hundreds of questions. The next year when he returned to America, Col. Boyce started a movement for the formation of such an organization in this country, with the result that, on Feb. 8, just 19 years ago, the organization came into being in the United States.

From the "good turn" done by the British scout has grown the organization in which more than 850,000 American boys are learning to do their best, each under oath to "do my duty to God and my country and to obey the scout law."

When he takes his oath, he promises to keep himself physically strong, mentally awake and morally straight. Under the 12 laws of scouting, he is trustworthy, loyal, helpful, friendly, courteous, kind, obedient, cheerful, thrifty, brave, clean and reverent.

## THREE OFFICERS OF SHELL CO. PROMOTED

Official announcement has been made of the promotion of three men to high executive positions in the Shell Oil company, marketers of Shell 400 "dry" gas and Shell Motor oil.

Earl L. Miller, newly promoted to a vice-presidency, Dr. E. F. Davis, also made a vice-president, and Albert R. Bradley, new secretary of the big corporation, are the three named.

Dr. Davis is one of the best known petroleum geologists in the world, the man who located the discovery well on Signal Hill near Long Beach, a field in which Shell pioneered development. In recognition of his able work, of which his spectacular discovery at Signal Hill in 1922 was only a part, Dr. Davis now becomes vice president and geologist of the Shell Oil company. He lives in Glendale.

Earl L. Miller's rise to a vice-presidency of one of the nation's most important corporations has been exceedingly rapid. He joined Shell in 1914 as a clerk working rapidly through the secretary's office into the sales department and became assistant to Vice-President Herbert R. Gallagher. When Gallagher was chosen president of the new Shell Development company some time ago, Miller was named vice-president in charge of sales to succeed him. Miller lives in Berkeley.

Albert R. Bradley is an attorney by training and his first connection with Shell was in the tax and claims department. Later he handled all the legal phases by buying and leasing oil lands. During this time he was stationed in Los Angeles, returning to San Francisco to take the office of assistant secretary. On the retirement of the former secretary, Bradley was named to that position.

## 10 SUBPOENAED IN ISLAND RUM CASE

MARTINEZ, Feb. 11.—Ten Contra Costa county residents were today subpoenaed as witnesses for the forthcoming trial of Lawrence Edwards, Marquis Hotchkiss, Byron Beare and William Dorsey on conspiracy charges growing out of the seizure of a giant still on Bethel Island last April.

George Kavanaugh, deputy United States marshal of San Francisco, was in Martinez today serving the papers.

The still used in the production of alcohol, it is charged, was found in a barn surrounded by barbed wire entanglements. Dorsey and a companion, Frank Santuri, were caught operating the plant and fined \$1000 each and sentenced to terms of three months each in the county jail.

Evidence in the case was turned over to the federal officers by county officials. The indictments against the four men resulted. Officers claim that the still, part of the \$25,000 equipment of the plant, was purchased at a sheriff's sale in Amador county and transported to the Delta district.

## Condition Of Henry Serious Reports State

MARTINEZ, Feb. 11. The condition of E. D. Henry, 33, former Richmond police officer, was reported as slightly improved by the county hospital authorities today. Henry shot himself in the left lung after he had attempted to kill his wife in a cabin in Redwood canyon Friday afternoon, according to police reports.

Physicians here are doubtful of his recovery because of his weakened condition from pulmonary infection of long standing.

Mrs. Velma Henry, wife of the ex-officer, and her two children, Lee, 8 months old and Roy, 5, escaped from the cabin that had been their home for several months, after Henry had twice pulled the trigger of his revolver, which, his wife told sheriff's officers, failed to fire. A short time later Henry repaired the firearm and shot himself, his wife having fled to the home of neighbors.

The near tragedy resulted when Mrs. Henry refused to purchase liquor for her husband, according to Deputy Sheriff R. A. McNamara, who is investigating the case. Henry was a policeman here for a year, from December, 1924, to December, 1925.

## BODIES HUNTED IN HERCULES EXPLOSION

Continued from Page 1

Searchers for the bodies of Fred and Anderson were halted by darkness last night with only portions of the remains found. The body of Christensen was found intact near the debris of the building.

Meanwhile an investigation is being conducted under the supervision of E. D. Armstrong, plant manager, and Coroner Aubrey Wilson. Armstrong declared that as in all explosions of this kind, the cause of the blast will probably never be known. All of the men in the building were killed. Johnson, who is a trucker, had just left the packing house after delivering a cargo of gelatin. He is not employed in the structure except to deliver supplies to the workers there. He could give no cause for the explosion, declaring that conditions appeared to be normal when he left the building a few minutes before. Johnson said that he was thrown to the ground face downward without knowing what had happened. He was found there by a rescue crew which was formed immediately after the blast. After being revived by first aid treatment, Johnson was able to return to his home.

Others See Blast  
Dave White, engineer, and Louis Mareiro, switchman of a plant switching train, were within 200 feet of the plant when the explosion occurred. They said that the debris of the building was thrown about 200 feet into the air as the 1000 pounds of glycerine impregnated gelatin in the packer exploded. A cone of smoke rose hundreds of feet in the air and was seen by many Richmond residents.

Windows in downtown office buildings rattled as the detonation, one of the heaviest in the history of the plant, occurred. Reports from Oakland and other nearby cities stated that the explosion had been felt there. Phenols was severely shaken.

Rites Pending  
Funeral arrangements for the three victims are pending in the hands of Wilson and Kratzer. No date has as yet been set for the funeral. Relatives of Anderson are being sought in Tacoma by the coroner's office.

A sister of Christensen, Mrs. E. Hamm, was located at Thirty-fourth avenue, Oakland. His mother was located at Thirty-fourth avenue, Oakland. His mother was located at Thirty-fourth avenue, Oakland.

or, Mrs. C. A. Christensen at Santa Cruz, was to be informed of his death last night. Christensen is also survived by five other sisters and six brothers.

Six Other Blasts  
Six major blasts have previously occurred at Hercules since 1916. Nine men lost their lives in the explosions.

The last explosion just previous to yesterday's occurred on Nov. 4, 1926, when four men lost their lives. On April 26 of the same year four other men lost their lives and on Sept. 6, 1923, one man was killed. Three other explosions have occurred at the plant but no one was hurt or injured in them, as all occurred on a holiday when no one was working in the buildings.

All structures of the plant are isolated to provide the greatest amount of safety. Every structure in which explosives are handled is at least 400 feet from the nearest building. All are protected by massive earthen breastworks to prevent a heavy loss of life in case of accident.

Torn to Shreds  
Everything in the building of Packer No. 4 was blown to bits yesterday with the exception of Christensen. Just how he escaped being torn to shreds could not be explained unless he had started to leave the building or was in a protected portion of the structure.

As in all cases of this kind, the true cause of the explosion will probably never be learned. Armstrong stated yesterday. The machine and other portion of the working equipment are so badly mangled that it will be impossible to find any possible cause for the blast.

## BOBBY TROUT WINS AIR RECORD

LOS ANGELES, Feb. 11.—(UP)—After hours of cold night flying, Bobby Trout, 18-year-old Los Angeles aviator today regained the world's endurance flight record for women.

When she landed her monoplane at 10:16 a. m., after 17 hours of flying, she had also set a new record for night flying and the distance mark for a 10-hour power ship.

The girl's mother, Mrs. L. Trout, who had remained at Mines field throughout the night, led to greet her daughter at the Golden Eagle plane touched ground. Several thousand persons who had word of the flight in the morning papers were at the field to cheer the intrepid flier.

"I'm not tired at all," the girl said. "I could have stayed up all night but the gasoline was running out."

"I just had to take the record away from Ethel Smith," she said. "I just wanted to be in a record of weeks." "Bobby Trout" battered Mr. Trout's mark a few weeks ago with a record of 15 hours and 15 minutes.

The most aviator equaled the night flying record at 2 a. m. and kept on going. She took off at 5:10 p. m. Sunday, but the night record did not begin officially until 6 p. m.

## BACK IN THE GAY NINETIES

REMEMBER when you were 21? ... Would you say that you were the world's best manager of money? Would you say that you were even fair?

Probably not. You were too young to have had much financial experience.

And yet, if you leave no will, your children will receive their share of your estate the day they become of age.

Even if you leave a will, without special provisions, they will still receive their share when they become what the law calls "of age."

It is quite simple to avoid this situation and protect your children

by leaving your money in trust. The principal will be carefully invested by us as trustee, and the income paid to your boys and girls until they reach, say, age 30 or 35. Then the principal can be turned over to them in any way you wish.

Many men put their children

share of your estate the day they become of age.

Even if you leave a will, without special provisions, they will still receive their share when they become what the law calls "of age."

It is quite simple to avoid this situation and protect your children

"on probation," and leave it to the trustee to decide when they have earned the right to take over for themselves the management of the principal.

This may be a thought that you would like to follow up. Ask us about it the next time you come in.

## SPECULATION SCORED IN CONGRESS

WASHINGTON, Feb. 11.—UP.—Congressional interest in the recent decline of the stock market transformed itself into action aimed to curtail speculation today in both the house and the senate.

Besides heated debate in which stock market trading was denounced as "the menace of the times" and the federal reserve board severely criticized the outstanding developments were:

Adoption by the senate of the Hoplin resolution calling upon the federal reserve board to recommend legislation for control of speculation.

Introduction by Representative Brand, dem., Ga., a member of the banking committee of a resolution providing for a thorough investigation of federal reserve board policies.

Consideration by the senate of the Curaway bill to outline speculation in cotton and grain.

A demand by Representative Black, dem., N. Y., for action on his resolution to investigate the federal reserve board's warning against excessive broker's loans, which is held responsible for the depressed condition of the stock market.

## ARMS EMBARGO DISCUSSED BY SOLONS

WASHINGTON, Feb. 11.—UP.—Reaction to the proposal of Senator Capper representative, Kans., for placing an embargo against any nation which violates the Kellogg anti-war treaty was uncertain today.

Predominant sentiment was that so many complications hedge about such a daring proposal that time for careful study is necessary. Senator Capper himself shares this view; he introduced his resolution today only to stimulate discussion as to the best means of putting a good set of teeth into the anti-war treaty which accordingly in recent debate, was only a gesture and important one but entirely without force.

Representative Porter, republican, Pa., chairman of the house foreign affairs committee offered a resolution looking somewhat to the same end as Capper's but proposing a different route.

Grace M. Hay Drummond Hay

Lady Grace Drummond Hay, only woman passenger on the Graf Zeppelin.

"The fact that we were not permitted to smoke from the time the Graf Zeppelin left Friedrichshafen until we landed at Lakehurst only increased my appetite for a Lucky Strike. Oh, how good that first one tasted! I'm really keen for Lucky Strike—the toasted flavor is delightful. I smoke a Lucky instead of eating sweets—that's what many men have been doing for years. I think it high time we women smoked Luckies and kept our figures trim."

GRACE M. HAY DRUMMOND HAY

The modern common sense way—reach for a Lucky instead of a sweet. Everyone is doing it—men keep healthy and fit, women retain a trim figure. Lucky Strike, the finest tobaccos, skillfully blended, then toasted to develop a flavor which is a delightful alternative for that craving for fattening sweets.

Toasting frees Lucky Strike from impurities. 20,679 physicians recognize this when they say Luckies are less irritating than other cigarettes. That's why folks say: "It's good to smoke Luckies."

Note: Authorities attribute the enormous improvement in the process of Cigarette manufacture by the application of heat. It is true that during 1928, Lucky Strike Cigarettes showed a greater increase than all other Cigarettes combined. This surely confirms the public's confidence in the superiority of Lucky Strike.

## NEW EXPOSE IN KEVES CASE PROMISED

Continued from Page 1.  
attorneys' office, it revealed.

Not Through Yet  
While the prosecution would not commit itself as to whether or not Getzoff had spoken of the dismissal of conspiracy to defeat justice charges against Mrs. McPherson after her "kidnaping," he remarked that "Getzoff isn't through yet."

It was reported unofficially, but authoritatively, that the McPherson case had been mentioned by Getzoff and that the evangelist's 1926 disappearance might be taken before the grand jury again.

Pitts revealed that Getzoff had approached him before his trial with Keves and Ed Rosenberg and offered to turn state's evidence.

"But I had already taken Jacob Berman as a state witness and I couldn't grant everybody immunity. I had to try someone," Pitts added.

"Complete Confession"  
It was reported that Getzoff has made a complete confession of the bribery conspiracy in which he was convicted with Keves and Rosenberg who was a Julian defendant. He was said to have revealed facts which brought the last shadows of Keves' hope to escape prison hanging about him.

Keves, Getzoff and Rosenberg were to have been sentenced to from one to four years in San Quentin prison today, but were granted a continuance until next Thursday to prepare an appeal.

Trial Discussed  
According to Pitts the greater part of his discussion with Getzoff concerned the forthcoming trial of Keves and A. I. Lasker, who allegedly bribed the former official.

Pitts went before the grand jury twice this afternoon and later had Lasker brought to his office from the county jail, where he is awaiting sentence of from 1 to 50 years for violation of the stock corporation securities act. He and Keves are to trial March 4.

It is not expected the preliminary inquiry into the state jury pit will be completed by the time the Lasker case is involved in the confession. Lasker is not yet a prisoner. He is finished with a mile.

Escaped Convict Taken At Martinez

MARTINEZ, Feb. 11.—John A. Mason, 35, was arrested here today by Deputy Sheriff Steve Nollan and R. A. McNamara after a fellow employee in the Columbia hotel units at Martinez had recognized him as an escaped convict from Grand Junction, Colo.

Mason was arrested with Gene Robinson and given a term of 90 days in jail in lieu of a \$2000 bond for possession and transportation of stolen property.

After serving 15 days, the pair escaped from jail. Mason is said to have confessed to the jail break.

Grand Junction authorities have informed of Mason's apprehension and officers here are waiting orders from an officer at Grand Junction.

## Many Die As Record Cold Strikes Europe

Continued from Page 1.  
The storm was the worst in a number of years.

2 Die in Berlin  
Two persons were frozen to death in Berlin this afternoon and 147 were treated at hospitals for frozen hands, feet and noses. Most of the casualties were women.

Three children died of cold near Breslau, Germany. They were living in an unheated room in the district of Lubinitz. Four railroad workers near Breslau, wearing earmuffs because of the severe cold, failed to hear an approaching train and all were killed.

11 Warsaw Deaths  
Eleven deaths were reported from Warsaw, Poland, where the cold weather in 100 years was recorded. The thermometer was breaking all records in Poland, where thousands of persons were suffering for lack of coal. All railroad lines are blocked by snow and a majority of the roads are impassable. Several minor riots were reported as the public protested the rising price of fuel.

Dispatches from Warsaw said the ground was frozen so hard that burial of the dead was impossible. One report said the thermometer was 47 degrees below zero tonight.

Pittsburg Game Raids Net 32

PITTSBURG, Feb. 11.—Thirty men and two women, arrested in raids conducted Sunday morning by Chief of Police Charles Seiders, were scheduled to appear before Police Judge Wade Moore today.

The men were arrested in a raid in the Red Front pool hall on gambling charges and the two women were charged with vagrancy after being taken into custody at the Anna Hotel. They were released on bail.

As the city jail has accommodations for only ten, twenty of the men were taken to the county jail in Martinez. The slot machine and \$400 in cash on the tables were seized by the police and sent to the city.

Chief Mrs. MacPherson, 1124 Chandler avenue, The visitor will be here for several days.

## COURT GUARDED AS 'APE BOY' HEARS DOOM

RIVERSIDE, Feb. 11 (U.P.) In a courtroom heavily guarded by deputy sheriffs to prevent mob violence, Gordon Stewart Northcott late today was condemned to be hanged at San Quentin prison on April 15 for the murder of three young boys.

Fifty deputies were placed at strategic positions in the crowded room, six men being stationed at each door. There was no demonstration such as was feared after a mob of 200 men had visited the county jail early Sunday.

Superior Judge George R. Freeman, pronouncing sentence for the three murders, ordered Northcott hanged for each of them.

"Have you anything to say as to why sentence should not be pronounced?" the court asked Northcott.

Denies Guilt  
"Only that I am innocent of these charges," the pale youth replied calmly. He frequently turned to face the spectators to see if there were any signs of open hostility.

"For the murder of Lewis Winslow, I sentence you to be hanged by the neck until dead," Judge Freeman said quickly. He then set the time and place.

In rapid succession he ordered Northcott executed on the same day for the slaying of Nelson Winslow, the first named boy's brother, and John Doe, an unidentified Mexican.

Thanks Judge  
Northcott grinned at the judge and said politely, "Your honor, I thank you for your consideration." A like statement was addressed to the jury which found him guilty Thursday night.

The youth requested a new trial but Judge Freeman told him that if there were any errors they could be taken care of in an appeal. Northcott did not give notice of appeal today.

The 22-year old Canadian was returned to the county jail. He will be taken to Glendale by automobile tonight. At Glendale Northcott and his guards will board a train for San Francisco, en route to San Quentin.

Bones Found  
He will be imprisoned in the same institution in which his mother is serving a life sentence for the self confessed slaying of Walter Collins. Northcott was indicted on this charge also, but the indictment will not be pressed, it was announced.

Despite his statement in court that he was innocent, Northcott earlier gave Sheriff Clem Sweetser information which led to the unearthing of a handful of charred bones under an ash heap on the Wineville "murder farm."

The bones were believed to be those of the nine year old Collins boy, assertedly mistreated and slain on the farm. The bones will be given to chemists in an effort to determine if they are human remains.

Followed Mob Action  
Northcott was said to have given the information after the mob lead by N. H. Winslow, of Pomona, visited the jail to "find out where the Winslow boys' bodies are buried."

Northcott was reported to have been in terror throughout the night and to have sent deputies to investigate the ash heap in the hope that the move would ward off a return of the night visitors.

In court, however, the youth seemed to have regained his composure. He affected the same sneering smile that characterized him during his trial.

His future plans, regarding an appeal, were not disclosed.

## MRS. COSMAN GETS DIVORCE

RENO, Nev., Feb. 11.—UP—A divorce from Jack T. Cosman, New York millionaire, restoration of the maiden name of Ella M. Shorth and clear title to jewelry worth \$100,000 were granted here today to Mrs. Ella Cosman, authoress.

The decree, which incorporated every demand made by the authoress, followed her testimony that she had been "harassed" for many months by agents her husband had hired to follow her.

Twice, she claimed on the witness stand, diamonds and pearls which her husband had given her had been taken back by him and she had been forced to resort to court action to recover them.

Mrs. Cosman told the judge she had been trailed to Lake Tahoe and later to Reno and attempts were made to damage her reputation through the circulation of untruthful statements.

She said she engaged a private guard to patrol the door of her apartment here and claimed he had been spirited away in an airplane to New York.

The couple were married in London Feb. 3, 1914.
